

- leukocyte cell-cell adhesion
- Cytokine-cytokine receptor interaction
- positive regulation of response to external stimulus
- regulation of inflammatory response
- T cell costimulation
- regulatory T cell differentiation
- Inflammatory response pathway
- cell chemotaxis
- positive regulation of peptidyl-tyrosine phosphorylation
- Rheumatoid arthritis
- Transcriptional misregulation in cancer
- heterotypic cell-cell adhesion
- cell-substrate adhesion
- chorio-allantoic fusion
- regulation of B cell differentiation
- positive regulation of myeloid leukocyte differentiation
- NF-kappa B signaling pathway
- Tyrobp causal network in microglia
- positive regulation of cell development
- positive regulation of apoptotic process
